

# The Future

# Is Today!

## **Congratulations, Toyota Motor Manufacturing, Mississippi, Inc.!**

As the first Toyota Corolla rolls off the assembly line at the Blue Springs plant, Northeast Mississippi officially earns its designation as a full-fledged center for automobile manufacturing.

From an agricultural economy to an industrial economy to high-tech manufacturing, our citizens' work ethic and desire to succeed has attracted the many businesses that have made our area their home, helping Northeast Mississippi to thrive. And, BancorpSouth has been here along the way, doing our part to help Northeast Mississippi grow and prosper. We're proud to have played an integral role as a partner to many of the companies which have located here. We're proud to be part of this phenomenal community, and we look forward to the many good things to come for all of us.

Congratulations, Toyota. You have helped bring the future here, today!
